I have enjoyed Lake Ontario and its tributaries since I was first able to swim. I now enjoy the Salmon River fish run in the fall regularly as a retiree.

Please restore the original hydrological break between the Mississippi River Basin and the Great Lakes within the next 18 months.

It would be an incredible ecological and economic tragedy when Asian Carp invade the Great Lakes if action isn't taken, Now!!

Our planet earth needs significant man made intervention to keep these lakes as natural and healthy as humanly possible. Please treat this eventuality as a terminal blow to adjoining Great Lakes' reliant economies and sportsmen if you fail to act responsibly on this matter.
